SIVA K

Computer Science Graduate | Aspiring Software / Python-Django Developer

Salem, Tamil Nadu, India | +91-9345567785 | siva95545@gmail.com | LinkedIn: add-your-link | GitHub: add-your-link

PROFESSIONAL SUMMARY

Final-year B.Sc. Computer Science student with hands-on internship experience building responsive websites and a self-directed Django e-commerce application. Proficient in Java, Python, and SQL, with practical exposure to HTML, CSS, JavaScript, Bootstrap, Django, MySQL, and Git/GitHub. Seeking an entry-level Software Developer / Python-Django Developer role to apply strong fundamentals in web development and problem-solving.

TECHNICAL SKILLS

- Programming Languages: Java (Core), Python (Core), SQL
- Web Technologies: HTML, CSS, JavaScript, Bootstrap
- Frameworks & Libraries: Django, Pandas, NumPy
- Databases & Tools: MySQL, Git, GitHub
- Other: Image and Video Editing

PROFESSIONAL EXPERIENCE

Web Development Intern — E-Commerce Platform

May 2025 – June 2025

- Built and maintained static and dynamic webpages using HTML, CSS, and JavaScript as part of a live production environment.
- Applied responsive design and mobile-first development principles to ensure cross-device compatibility.
- Developed reusable UI components styled with Bootstrap, improving delivery speed for new features.
- Participated in daily stand-ups and used Git/GitHub for version control and collaborative workflows.
- Wrote unit tests following Test-Driven Development (TDD) practices to improve code reliability.
- Optimized website performance through asset compression, semantic HTML, and code cleanup.

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Git, GitHub

PROJECTS

E-Commerce Web Application — Django

- Developed a fully functional e-commerce web application using Django, featuring user registration, login/logout, product management, and a shopping cart system.
- Implemented add-to-cart, checkout, and order history functionality using Django views and models.
- Built an integrated admin panel for efficient management of products, orders, and customers.

Tech Stack: HTML, CSS, JavaScript, Bootstrap, Django, MySQL, Git, GitHub
